Diagnosis and Treatment of Amplified Musculoskeletal Pain Syndrome (AMPS)

Thursday, March 2, 2017
12:00 - 1:00 PM Billings Auditorium P117

Kimberly S. Miller, Ph.D

Pediatric Psychologist
Center for Amplified Musculoskeletal Pain Syndrome (CAMPS), Division of Rheumatology
The Children’s Hospital of Philadelphia

Objectives

- Develop a general understanding of chronic pain, including the psychosocial factors associated with chronic pediatric pain and approaches/goals for treatment.
- Understand specific information about Amplified Musculoskeletal Pain Syndrome (AMPS), including typical patient profiles and factors that may complicate treatment.
- Develop specific knowledge related to the intensive hospital-based AMPS Program at CHOP, as well as information on physical, functional, and psychosocial outcomes.

Lunch will be provided to Pediatric Faculty, Fellows, and Residents
