# The University of Chicago Faculty

## Co-Directors

### **Sonia Kupfer, MD**

Assistant Professor of Medicine  
Director, Gastrointestinal Cancer  
Risk and Prevention Clinic

### **Joel Pekow, MD**

Assistant Professor of Medicine  
Co-Director, DDRCC  
Translational Core

### **David T. Rubin, MD**

Professor of Medicine  
Section Chief, Gastroenterology,  
Hepatology & Nutrition  
Co-Director,  
Digestive Diseases Center

## Speakers

### **Neil Hyman, MD**

Professor of Surgery  
Chief of Colorectal Surgery

### **Jessica Stoll, MS, CGC**

Genetic Counselor,  
Gastrointestinal Cancer Risk and  
Prevention Clinic

### **Konstantin Umanskiy, MD**

Assistant Professor of Surgery  
Program Director, Colon  
and Rectal Surgery Residency  
Program

### **John Hart, MD**

Professor of Pathology

### **Lisa Cannon, MD**

Clinical Associate of Surgery

## Faculty Disclosure

It is the policy of the University of Chicago to ensure balance, independence, objectivity, and scientific rigor in all its individually sponsored or jointly sponsored educational activities. All individuals who are in a position to control the content of this educational activity are required to disclose all relevant financial relationships with any commercial interest related to the subject matter of the educational activity. Mechanisms to ensure that presentations are free from commercial bias are in place. Faculty will also disclose any off-label and/or investigational use of pharmaceuticals or instruments discussed in their presentation. Full disclosure of this information will be published in the activity materials.

### Description

Groups at increased risk of colon cancer include patients with familial cancer syndromes and inflammatory bowel disease. Identification of risk factors in these patients and implementation of increased surveillance with enhanced imaging during colonoscopy can lead to earlier detection of neoplastic lesions in the colon. Chromoendoscopy is a type of “image-enhanced endoscopy” that uses dye spray or advanced optical technology. Recent studies have shown “chromoendoscopy with targeted biopsies was less costly and more effective than white-light colonoscopy with random biopsies.” Although it can be a highly valuable procedure, experts in the field agree it is greatly underutilized. This activity will bridge that practice gap by helping gastroenterologists understand the indications for increasing surveillance in high risk populations and applications of chromoendoscopy in clinical practice.

### Target Audience

This activity has been designed for physicians, surgeons and other allied health professionals in the specialty of gastroenterology.

### Learning Objectives

At the conclusion of this course, the participants should be able to:

- Recognize the risk factors for dysplasia in patients with inflammatory bowel disease;
- Identify patients at an increased risk for colorectal cancer;
- Discuss different modalities of chromoendoscopy and their safety;
- Describe the techniques involved in chromoendoscopy procedures.

### Accreditation and Credit Designation

The University of Chicago Pritzker School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of 3.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses and other healthcare professionals will receive a Certificate of Participation. For information on the applicability and acceptance of Certificates of Participation for educational activities certified for *AMA PRA Category 1 Credit™* from organizations accredited by the ACCME, please consult your professional licensing board.

---

7:30 am **Breakfast and Networking**

---

8:30 **Introduction**  
*D. Rubin*

Hereditary Colon Cancer

---

8:45 **How to Identify Individuals at High Risk for Colon Cancer**  
*S. Kupfer*

---

9:05 **Pathology Pearls and Pitfalls**  
*J. Hart*

---

9:20 **Multidisciplinary Case Discussion**  
*S. Kupfer, J. Stoll, K. Umanskiy, J. Hart*

---

10:20 **Break**

Inflammatory Bowel Disease

---

10:35 **Risk Factors for Dysplasia and Cancer in IBD**  
*J. Pekow*

---

10:45 **Pathology Pearls and Pitfalls**  
*J. Hart*

---

11:00 **Chromoendoscopy and SCENIC**  
*D. Rubin*

---

11:30 **Tour of hospital and Lunch**

---

12:00 pm **Multidisciplinary Case Discussion**  
*J. Pekow, D. Rubin, N. Hyman, L. Cannon, J. Hart*

---

1:00 **Concluding Remarks**  
*D. Rubin*

## How To Register

 **ONLINE** [UchicagoColonCancerPrevention2015.eventbrite.com](http://UchicagoColonCancerPrevention2015.eventbrite.com)

## Registration

The registration includes: conference admission, continental breakfast, refreshment breaks, lunch and a comprehensive electronic syllabus. While registration is open until the start of the conference, we encourage early registration to enable us to provide the best possible service to participants.

## Conference Location

**The University of Chicago Medicine**  
Center for Care and Discovery  
5700 South Maryland, 7th Floor  
Chicago, IL 60637

## Accessibility

The University of Chicago is committed to providing equal access appropriate to need and circumstance and complies fully with the legal requirements of the Americans with Disabilities Act. If you are in need of special accommodation, please contact our office at 773-795-7109 or via email at [amajkowski@medicine.bsdu.uchicago.edu](mailto:amajkowski@medicine.bsdu.uchicago.edu).

For additional information about this activity, please contact Amy Majkowski at 773-795-7109.
