Invitation from the Course Director

We invite you to join us at this exciting, comprehensive review and update of the practical aspects of all major subspecialties of Diagnostic Radiology. Our experts are chosen for their excellence as teachers and they will share their clinical expertise and insight to help you improve your performance and practice. They will guide you to appropriate use of conventional imaging modalities such as plain film radiography, computed tomography, magnetic resonance imaging, ultrasound, nuclear medicine and angiography; and when appropriate, they will emphasize newer important imaging modalities including PET/CT, diffusion weighted MR, cardiac CT, and virtual colonoscopy. Current and future trends in radiology healthcare economics will also be explored. Major emphasis will be placed on the practical and clinical aspects of Diagnostic Radiology. Diagnostic tips, techniques and pitfalls will be stressed and differential diagnoses of common radiological findings will be covered. Unknown case reviews will be held after each section — allowing participants to test themselves in a relaxed atmosphere. These popular sessions will stress practical clinical problems and differential diagnoses. Audience Response System (ARS) technology will be used throughout the course and many Self-Assessment Credits (SAMs) will be offered.

We hope that you will join us for the 22nd iteration of this fantastic meeting and look forward to welcoming you to exciting Chicago!

Course Director,

Daniel E. Appelbaum, MD

Goals and Learning Objectives

The goal of this activity is to provide participants with critical updates in the field of radiology that will improve their competence and improve patient care. At the conclusion of this educational activity, participants will be able to:

- Identify the clinical features of common and less common diseases to create an appropriate differential diagnoses;
- Discuss how both general and subspecialty radiologic imaging techniques lead to the appropriate differential diagnoses of common and less common diseases;
- Detail how the newer imaging methods of breast tomosynthesis, diffusion MR tractography, cardiac CT/MR, virtual colonoscopy, PET/CT, SPECT/CT, and PET/MR can lead to improved diagnoses;
- Compare the most effective imaging methods of different disease entities;
- Analyze the strengths and limitations of different diagnostic imaging procedures;
- Describe how technology and the greater healthcare system affect the practice of radiology.

Target Audience

The target audience includes practicing radiologists and residents seeking a comprehensive review of Diagnostic Radiology.

Accreditation and Credit Designation

The University of Chicago Pritzker School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of 47.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses and other healthcare professionals will receive a Certificate of Participation. For information on the applicability and acceptance of certificates of participation for educational activities certified for *AMA PRA Category 1 Credit™* from organizations accredited by the ACCME, please consult your professional licensing board.

This meeting is provisionally qualified as of October 2016 with full qualification by the ABR expected before the SAM is taken.

Educational Grants/Commercial Support

A complete listing of commercial support received will be provided in the conference materials.

Disclosure Declarations

As a provider accredited by the ACCME, The University of Chicago Pritzker School of Medicine asks everyone who is in a position to control the content of an education activity to disclose all relevant financial relationships with any commercial interest. This includes any entity producing, marketing, re-selling, or distributing health care goods or services consumed by or used on patients. The ACCME defines “relevant financial relationships” as financial relationships in any amount occurring within the past 12 months including financial relationships of a spouse or life partner that could create a conflict of interest. Mechanisms are in place to identify and resolve any potential conflict of interest prior to the start of the activity.

Additionally, The University of Chicago Pritzker School of Medicine requires Authors to identify investigational products or off-label uses of products regulated by the US Food and Drug Administration at first mention and where appropriate in the content.

Location and Accommodations

We are excited and pleased to be returning to Hyatt Chicago Magnificent Mile in 2017! At the Hyatt Chicago Magnificent Mile Hotel, you are in the heart of Chicago, steps from Michigan Avenue, the Gold Coast neighborhood, and Lake Michigan. This classic urban hotel is a symbol of hospitality on The Magnificent Mile. We are pleased to offer a special discounted rate of \$209.00 per night for single or double occupancy. Room reservations must be made by March 10, 2017 to guarantee the reduced rate. All rates are subject to state and city taxes and must be guaranteed and accompanied by a first night room deposit or guaranteed with a major credit card. Check-in time is 3 pm and check-out time is 12 pm. Cancellations must be received 24 hours prior to arrival or one night room and tax will be assessed.

To reserve a room at this special rate, please call the hotel toll free at 888-591-1234 and identify yourself as part of the University of Chicago Radiology Review 2017 event or book online at: resweb.passkey.com/go/RadiologyReview2017

With a locale just one block from Michigan Avenue, near Chicago dining, shops, museums and art galleries, this hotel provides a great base to explore exciting Chicago tourist attractions. Additionally, you can maintain your healthy lifestyle with a satisfying workout in the fitness center or a swim in the sparkling indoor pool.
