# 23RD ANNUAL PRIMARY CARE ORTHOPAEDICS

A REVIEW OF BASIC AND CURRENT CONCEPTS

**COURSE DIRECTOR**

Sherwin S.W. Ho, MD  
Professor of Orthopaedic Surgery  
and Rehabilitation Medicine

**ASSOCIATE COURSE DIRECTOR**

Michael J. Lee, MD  
Associate Professor of Orthopaedic Surgery  
and Rehabilitation Medicine

# CONFERENCE DESCRIPTION

**Primary care, urgent care, and emergency room physicians, as well as other healthcare providers, are often on the front line in the initial care and management of orthopaedic problems.** This course is intended to enhance the attendees' knowledge base regarding common orthopaedic problems and increase their confidence in managing these issues. This 23rd Annual course will provide a complete review of basic principles of orthopaedic care. Particular attention will be paid to the diagnosis and initial management of the orthopaedic problems most commonly seen by the primary care giver. Formal question and answer periods will follow each session, paneled by the faculty. We will feature daily "Spotlight Lectures" on hot topics related to orthopaedic issues and updates.

This conference will provide physical therapists, occupational therapists, and athletic trainers with evidence-based rationale for assessment and treatment techniques for various musculoskeletal conditions. Through didactic presentation, video, case study discussion, and hands-on demonstration, attendees will expand their skills, as well as be able to return to the clinic and incorporate new treatment skills into existing expertise.

## OPTIONAL AFTERNOON WORKSHOPS

Optional afternoon workshops will cover those parts of the orthopaedic physical examination relevant to the morning lectures. As in previous years, there will be hands-on workshops covering joint and bursa injections. We will also conduct a workshop devoted to reading X-rays and MRIs. All workshops are optional with limited seating available, additional fees apply.

## LEARNING OBJECTIVES

Upon completion of this activity, participants will be better able to:

### GENERAL SESSIONS

- Describe how to diagnose common patient problems in the following orthopaedic areas: trauma, spine, foot and ankle, pediatrics, sports medicine, upper extremity, and adult hip and knee;
- Distinguish patient issues that need to be referred to an orthopaedist from those best treated by a primary caregiver;
- Explain how to safely manage those orthopaedic problems that are appropriately treated by a primary caregiver;
- Name key elements of the orthopaedic physical examination;
- State the most appropriate imaging modalities of common orthopaedic problems;
- Analyze how a team approach to interdisciplinary care of orthopaedic problems can improve patient care;
- Develop strategies to efficiently maximize the value of orthopaedic services through an interdisciplinary, team-based approach to patient care.

### ELECTIVE WORKSHOPS

- Demonstrate how to conduct a physical exam of the hand, wrist, shoulder, spine, hip, knee, ankle and foot;
- Interpret orthopaedic x-rays and MRIs to diagnosis orthopaedic problems in patients;
- Identify techniques to properly administer common, as well as less common, musculoskeletal injections.

## TARGET AUDIENCE

The target audience includes Family Medicine, Internal Medicine, Sports Medicine, Pediatrics, Physical Medicine and Rehabilitation, Emergency Medicine, Nurse Practitioners, Physical Therapists, Occupational Therapists, Athletic Trainers, and other Health Professionals interested in the diagnosis and management of common orthopaedic injuries and illnesses.

**Please join us for what promises to be an informative and comprehensive conference!**

## ACCREDITATION AND CREDIT DESIGNATION

The University of Chicago Pritzker School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

### GENERAL SESSIONS

The University of Chicago Pritzker School of Medicine designates this educational activity for a maximum of 15.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

### OPTIONAL AFTERNOON WORKSHOPS

The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of 8 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The University of Chicago is recognized by the Board of Certification, Inc. to offer continuing education for Certified Athletic Trainers. This program has been approved for a maximum of 23.5 hours of Category A continuing education.

The University of Chicago is a licensed continuing education provider with the Illinois Department of Financial and Professional Regulation for Physical Therapy, license #216-000030, and Occupational Therapy, license #224-000054. All participants will be provided with a certificate of attendance. This course is approved for a maximum of 23.25 continuing education hours for licensed therapists (PT, PTA, or OT, COTA) in Illinois. The University of Chicago has not applied to any other state for therapist CE credit. Participants will need to do this individually through their jurisdiction outside of Illinois.

Nurses and other healthcare professionals will receive a Certificate of Participation. For information on the applicability and acceptance of certificates of participation for educational activities certified for *AMA PRA Category 1 Credit™* from organizations accredited by the ACCME, please consult your professional licensing board.

## DISCLOSURE DECLARATIONS

As a provider accredited by the ACCME, The University of Chicago Pritzker School of Medicine asks everyone who is in a position to control the content of an education activity to disclose all relevant financial relationships with any commercial interest. This includes any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. The ACCME defines "relevant financial relationships" as financial relationships in any amount, occurring within the past 12 months, including financial relationships of a spouse or life partner that could create a conflict of interest. Mechanisms are in place to identify and resolve any potential conflict of interest prior to the start of the activity. Additionally, The University of Chicago Pritzker School of Medicine requires Authors to identify investigational products or off-label uses of products regulated by the US Food and Drug Administration, at first mention and where appropriate in the content.
