

# Personalized Approaches to Sustained Biologic Remission in **CROHN'S DISEASE**

**Wednesday, August 26, 2015**

**Dinner & Registration: 4:00 PM**

**Program: 6:30 PM – 7:30 PM**

UCSF Fresno Center for Medical  
Education & Research

155 North Fresno Street

Fresno, CA 93721

Meeting Room: 137

## Faculty Presenters:

**Muhammad Y. Sheikh, MD, FACP, FACG, AGAF**

Chief of Hepatology & Director of Clinical Research  
Professor of Clinical Medicine and Surgery  
University of California San Francisco  
Fresno, CA

**Fernando Velayos, MD, MPH**

Associate Professor of Medicine  
Medical Director, Center for Crohn's and Colitis  
University of California, San Francisco

## Accreditation and Designation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The University of Chicago Pritzker School of Medicine, FACTORx, and MedEd Consulting. The University of Chicago Pritzker School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## Program Co-Chairs:

**David T. Rubin, MD, FACG, AGAF, FACP**

The Joseph B. Kirsner Professor of Medicine  
Chief, Section of Gastroenterology, Hepatology  
and Nutrition  
The University of Chicago Medicine

**William J. Sandborn, MD**

Professor of Medicine and Adjunct Professor of Surgery  
Chief, Division of Gastroenterology  
Director, UCSD IBD Center  
University of California San Diego and UC San Diego  
Health System

## Learning Objectives:

At the conclusion of these activities, participants will be able to:

1. Discuss the clinical benefits of mucosal healing in patients with CD
2. Design an effective treatment plan that maximizes the occurrence of mucosal healing in patients with CD
3. Evaluate the clinical utility of colonoscopy, non-invasive imaging techniques, and biomarkers for the assessment of mucosal healing in patients with CD

## Agenda:

- I. Introduction
- II. Endoscopy for the Assessment of Mucosal Healing
- III. Novel Techniques to Assess Mucosal Healing:  
Radiology & Biomarkers
- IV. Individualizing Therapy for Patients with Crohn's Disease
- V. Conclusion/Q&A

## Acknowledgement of Commercial Support

This activity is supported by independent educational grants from AbbVie, Prometheus and UCB.
