Elizabeth (Beth) Ely is a pediatric nurse researcher who received her BSN from Duke University, her MS in child psychiatric nursing from the University of Maryland and PhD in nursing from The University of Colorado in 1996.

Presentation

Pain Assessment of Children with Difficulty Communicating

Wednesday, October 10th, 2018

1:00 - 2:00 PM

Comer, K-160

Objectives:

- ❖ Identify challenges in managing pain for children with difficulty communicating so care can be individualized.
- ❖ Evaluate clinical application of methods for assessing pain in children with difficulty communicating.
- ❖ Consider the impact of personal and organizational values, beliefs and culture on managing pain in individuals unable to clearly communicate their pain.

Sponsored by the Center for Nursing Professional Practice and Research - University of Chicago Medicine

This CNE activity offers 1 Contact Hour

Criteria for Successful Completion: Attendance for the entire program and completion of the program evaluation tool.

Conflict of Interest Disclosure: This educational activity is being presented without the provision of commercial support and without bias or conflict interest from the planners and faculty.
