

# New FRONTIERS IN THERAPIES FOR CELIAC DISEASE

The University of Chicago  
Celiac Disease Center:  
Finding a Cure

Vaccine therapy  
Biologics  
Small Molecule Therapy

Peptide Therapy  
Microbial Engineering  
Nutritional Approaches

**Saturday, November 23, 2019**  
**7:30am – 4:30pm**  
University of Chicago / Ida Noyes Hall

Open to  
Physicians  
researchers  
dietitians  
nurses and  
patients

**BROOKE AND DUNCAN MACLEAN**

We welcome physicians, researchers, dietitians, nurses, and patients to this event. This is a gathering of health professionals, patients, and the celiac community to learn how to manage the challenges of the celiac disease and to celebrate our community's milestones.

We are confident that this event will be an amazing opportunity for you and your peers. Together, we will inspire one another to look toward an even brighter future!

# NEW FRONTIERS IN THERAPIES FOR CELIAC DISEASE

## SYMPOSIUM AGENDA

**7:15AM >> BREAKFAST**

**8:15AM >>** Welcome – Bana Jabri, MD, PhD, Research Director, UChicago Celiac Disease Center & Ritu Verma, MD, ChB, Medical Director, UChicago Celiac Disease Center

**8:20AM >>** History of celiac disease – Stefano Guandalini, MD, Founder & Professor Emeritus, UChicago, Celiac Disease Center

**8:40AM >>** Lori Rowell Welstead, MS, RD, LDN - Diet and nutrition

**9:00AM >>** Norella Rizkalla Reilly, MD, Pediatric Gastroenterology, Columbia University: Diet compliance psycho-social aspects of diet

**9:20AM >>** Carol Semrad, MD, Director of Adult Clinical Research, UChicago: Refractory Celiac Disease

**9:40AM >>** Sonia Kupfer, MD, Director of Clinical Genetic Research, UChicago: Biopsies to diagnose celiac disease in adult patients

**10:00AM >>** Open Q&A

**10:20AM >> BREAK**

**10:40AM >>** Peter H.R. Green, MD, Director, Columbia University Celiac Disease Center

**11:00AM >>** Sheila Crowe, MD, University of California San Diego: Celiac disease and women's health

**11:30AM >>** Open Q&A

**12:00PM >> LUNCH**

**12:45PM >>** Panel Discussion – Sonia Kupfer, MD; Carol Semrad, MD; Bana Jabri, MD, PhD; Ritu Verma, MD, ChB; Hilary Jericho, MD; Valentina Discepolo, MD, PhD; Lori Rowell Weistead, MS, RD, LDN

**1:30PM >>** Bana Jabri, MD, PhD, UChicago & Ludvig Sollid, MD, PhD, University of Oslo: Celiac disease pathogenesis to new treatments

**1:50PM >>** Robert Anderson, BMedSC, MB, ChB, PhD, FRACP, Chief Scientific Officer, ImmusanT: Work with a potential vaccine

**2:10PM >>** Francisco Leon, MD, PhD, Chief Scientific Officer & Co-Founder, Provention Bio: Anti-IL-15/refractory celiac disease

**2:30PM >>** Open Q&A

**2:50PM >> BREAK**

**3:10PM >>** Chaitan Khosla, PhD, Professor in the School of Engineering and Professor of Chemistry, Stanford University: TG2 inhibition

**3:30PM >>** Nazli Azimi, PHARM.D., PhD, Founder & Chief Executive Officer, Bioniz Therapeutics: Combined targeting of IL-15 AND IL-21

**3:50PM >>** Pieter Rottiers, PhD, Chief Executive Officer, ActoBio Therapeutics: Immune modulatory bacteria

**4:10PM >>** Open Q&A

**4:30PM >>** Closing Remarks – Bana Jabri, MD, PhD, Research Director, UChicago Celiac Disease Center & Ritu Verma, MD, ChB, Medical Director, UChicago Celiac Disease Center
