KRANZLER CHICAGO REVIEW COURSE IN NEUROSURGERY

The **Chicago Review Course in Neurosurgery** has been recognized as the most thorough review of neurosurgery to residents and practicing physicians for more than forty years. Founded in 1973, this course was launched in an effort to provide a comprehensive and intensive review for residents preparing for their written boards, newly-established neurosurgeons preparing for their oral boards, and practicing neurosurgeons who want to ensure their diagnostic and surgical skills are current. The course is named to memorialize Dr. Leonard Kranzler's commitment to directing the course, and is now hosted by Dr. Martin D. Herman and the University of Chicago. The week-long course has been updated to include interactive quiz questions to participants to supplement the rigorous and comprehensive lecture schedule offering neuroscience, critical care, neuro-anesthesia, neurology, neuro-ophthalmology, neuroradiology, neuro-oncology, pediatric neurosurgery, vascular neurosurgery, spine, and functional neurosurgery.

NEW FOR 2022:

- Additional Interactive In-Course Quiz Questions
- Hybrid Format
- Advances in Neuro-Oncology and Functional Neurosurgery

ACCREDITATION

PHYSICIAN CREDIT

The University of Chicago Pritzker School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of 52 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

FEES

Profession Type	Registration Fee
Neurosurgery Attending	\$2400
Neurosurgery Resident	\$1800

CANCELLATION POLICY If you cancel your participation in this conference, your registration fee less a \$150 administrative fee will be refunded when written notification is received by January 1, 2022. No refunds will be made after January 1, 2022.

TOPICS

NEURORADIOLOGY/ID

Aaron Field, MD, PhD	advanced neuroimaging
Miral Jhaveri, MD, MBA	adult brain and spine neuroradiology
Michael Lin, MD	infections of the nervous system
Carina Yang, MD	pediatric neuroradiology

NEUROLOGY/CRITICAL CARE

George Bovis, MD	neuro-ophthalmology
Fernando Goldenberg, MD	neurocritical care
Anthony Reder, MD	central and peripheral demyelination
Helene Rubeiz, MD	nerve conduction studies and EMG
Keith Ruskin, MD	neuro-anesthesia

NEURO-ONCOLOGY

William T. Curry, MD	neuro-oncology and immunology of glial tumors
Michael Link, MD	vestibular schwannoma
Anand Germanwala, MD	pituitary disease and skull base surgery
Peleg Horowitz, MD, PhD	genetics of brain tumors
Vikram Prabhu, MD	meningioma and glomus tumor
Peter Warnke, MD	management of metastatic tumors

FUNCTIONAL

Richard Byrne, MD	epilepsy surgery
Joshua Rosenow, MD	deep brain stimulation for Parkinson's disease
Konstantin Slavin, MD	treatment of trigeminal neuralgia and pain

VASCULAR

Sepideh Amin-Hanjani, MD	vascular anatomy and aneurysms
Issam Awad, MD	cerebrovascular malformations and IVH/ICH
Aditya Pandey, MD	endovascular neurosurgery
Michael Schneck, MD	stroke prevention

SPINE/PERIPHERAL CARE

Allan Levi, MD, PhD	spine and spinal cord injury
Edwin Ramos, MD	spine tumors, sagittal imbalance, osteoporosis
Robert Spinner, MD	peripheral nerve compression, injuries, and tumors
Vince Traynelis, MD	CVJ pathology

PEDIATRICS/TRAUMA

Moise Danielpour, MD	spinal dysraphism, achondroplasia, Chiari/Syringomyelia
Russell Reid, MD	craniosynostosis
Bakhtiar Yamini, MD	pediatric tumors
