11:30 – 12:00 pm
Closing remarks

Faculty Advancing in Medical Education (FAME) is a faculty development program sponsored by the Academy of Distinguished Medical Educators and the MERITS Program (Medical Education Research, Innovation, Teaching, and Scholarship) at the Pritzker School of Medicine at the University of Chicago. FAME supports faculty educators by providing resources and training in key conceptual and practical skills in teaching and assessment. Launched in 2011-12, FAME offers 2-3 faculty development sessions each academic year.

Goals:

- Define Social Justice Allyship.
- Feel more prepared and motivated to take the next step to become an active social justice ally.
- Identify opportunities to enact change as a social justice ally in their clinical environment, in their educational and scholarship activities, and outside the walls of the hospital.

Objectives:

By the end of the workshops, the faculty will be able to:

- Establish a framework for practically applying workshop topics to their teaching venues.
- Improve specific faculty teaching and/or evaluation skills.
