### **Speaker Series *First Announcement***

Each year, this workshop builds on the research performed since we last met. The Fifth International Workshop on the Biology, Prevention, and Treatment of Relapse after Hematopoietic Stem Cell Transplantation and Cellular Therapy (HSCT<sup>2</sup>) features experts in the field who are ready with answers to your questions, including the one we're always asking: Where are we now?

#### **2021 Keynotes to attend:**

- Relapse Post Transplant; Where are we now? - Dr. Robert Soiffer
- Optimal Cells for Immunotherapy - Dr. Joseph Fraietta
- CAR T Cells; What is next? - Dr. Michel Sadelain

**Register** to join; bring your own knowledge and help develop new ideas in our vital cancer treatment specialty.

This socially distanced live event takes place in New York City, October, 7-9. We will be following Sheraton New York Times Square's COVID protocols. Stay up to date **here**.
