

Clinician Exchange Program

**How to
schedule your
shadow
experience.**

Scan below QR
Code and com-
plete the intake
form.

The intake form
will ask you to
think about clini-
cal areas you are
interested in vis-
iting and differ-
ent clinicians
you would like to
shadow.

After submitting
the intake form,
program leader-
ship will contact
you within 7
business days to
schedule the ex-
change.

Are you interested in learning about different clinical disciplines?
Would you like to know more about the ancillary clinical services you
partner with to provide patient care?

The clinician exchange program pairs clinicians from different disci-
plines enabling one or both clinicians to shadow each other as they
provide care in a clinical setting.

Research proves the effectiveness of shadowing as tool to improve
communication within the interdisciplinary team and safety within
the care environment.

Benefits Include:

- Get to know other members of the patient care team.
- Learn about different clinical disciplines
- Enhance teamwork within the interprofessional care team.
- This activity has been approved for *AMA PRA Category 1 Credit™*.
- Fulfill your annual patient safety or malpractice reduction training requirement
