

NorthShore Neurological Institute and Mayo Clinic Traumatic Brain Injury Symposium

Join us for an informative symposium to learn about the latest treatments and newest innovations for concussion management, featuring lectures from NorthShore Neurological Institute and Mayo Clinic's leading concussion experts.

Topics will cover:

- Acute concussion presentation and pathophysiology
- Contributors to prolonged recovery
- Helmet research and technology
- Translational TBI research
- Long-term risks of traumatic brain injury including neurodegenerative disease and CTE

Featuring keynote speaker, Dr. Rodolfo Savica, Associate Professor of Neurology, Mayo Clinic, Rochester, MN, who will speak about concussion and the risk of Parkinson's disease and other neurodegenerative diseases.

Presenters include specialists from the NorthShore concussion team along with physical medicine and rehabilitation (PMR), pathology, biomedical engineering and research.

Friday, Sept. 6, 2019
9:00 a.m.–3:00 p.m.
