David T. Rubin, MD, FAGC, AGAF, FACP

The Joseph B. Kirsner Professor of Medicine

Chief, Section of Gastroenterology, Hepatology and Nutrition

The University of Chicago Medicine

Chicago, IL

William J. Sandborn, MD

Professor of Medicine and Adjunct Professor of Surgery

Chief, Division of Gastroenterology

Director, UCSD IBD Center

University of California San Diego and UC San Diego

Health System

La Jolla, CA

Learning Objectives:

At the conclusion of these activities, participants will be able to:

1. Discuss the clinical benefits of mucosal healing in patients with Crohn's Disease (CD)
2. Design an effective treatment plan that maximizes the occurrence of mucosal healing in patients with CD
3. Evaluate the clinical utility of colonoscopy, non-invasive imaging techniques, and biomarkers for the assessment of mucosal healing in patients with CD

Agenda:

- I. Introduction
- II. Endoscopy for the Assessment of Mucosal Healing
- III. Novel Techniques to Assess Mucosal Healing: Radiology & Biomarkers
- IV. Individualizing Therapy for Patients with Crohn's Disease
- V. Conclusion/Q&A

Acknowledgement of Commercial Support

This activity is supported by independent educational grants from AbbVie, Prometheus, and UCB.
