

# Personalized Approaches to Sustained Biologic Remission in CROHN'S DISEASE

**Thursday, February 4, 2016**

**6:30 PM Reception**

**7:00 PM – 8:00 PM Presentation**

McCormick & Schmick's – Uptown Park  
1151 Uptown Park Blvd  
Houston, TX

## Faculty Presenters:

### Andrew W. Dupont, MD, MSPH

Director, Clinical Investigation in Gastroenterology  
Director, Inflammatory Bowel Disease Program  
Associate Professor, Gastroenterology, Hepatology and Nutrition  
University of Texas Health Center  
Houston, TX

### Bincy P. Abraham, MD, MS, FACG

Director, Fondren IBD Program  
Director, GI Fellowship Program  
Houston Methodist Hospital  
Houston, TX

## Accreditation and Designation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The University of Chicago Pritzker School of Medicine, FACTORx, and MedEd Consulting. The University of Chicago Pritzker School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## Program Co-Chairs:

### David T. Rubin, MD, FACP, AGAF, FACP

The Joseph B. Kirsner Professor of Medicine  
Chief, Section of Gastroenterology, Hepatology  
and Nutrition  
The University of Chicago Medicine  
Chicago, IL

### William J. Sandborn, MD

Professor of Medicine and Adjunct Professor of Surgery  
Chief, Division of Gastroenterology  
Director, UCSD IBD Center  
University of California San Diego and UC San Diego  
Health System  
La Jolla, CA

## Learning Objectives:

At the conclusion of these activities, participants will be able to:

1. Discuss the clinical benefits of mucosal healing in patients with Crohn's Disease (CD)
2. Design an effective treatment plan that maximizes the occurrence of mucosal healing in patients with CD
3. Evaluate the clinical utility of colonoscopy, non-invasive imaging techniques, and biomarkers for the assessment of mucosal healing in patients with CD

## Agenda:

- I. Introduction
- II. Endoscopy for the Assessment of Mucosal Healing
- III. Novel Techniques to Assess Mucosal Healing: Radiology & Biomarkers
- IV. Individualizing Therapy for Patients with Crohn's Disease
- V. Conclusion/Q&A

## Acknowledgement of Commercial Support

This activity is supported by independent educational grants from AbbVie, Prometheus, and UCB.
