

Urinary Incontinence (UI)

This activity has been approved for
AMA PRA Category 1 Credits™

August 10th to September 28th

Every Wednesday from
12:30 PM - 1:30 PM EST

ECHO-Chicago provides training via Zoom to build capacity at the primary care level to help PCPs become more competent and comfortable delivering care for urinary incontinence. This series will use an evidence-based approach to improve physician and office staff confidence and comfort to manage UI in a primary care setting. This series will increase the workforce capacity of nurse navigators and primary care physicians who are working with medically complex individuals with urinary incontinence.

Participants receive:

- Up to 8 CME credits certified by the University of Chicago
- New skills and knowledge through case-based interactive learning (including cases provided by participants)
- Training provided at no cost to participants and no travel

- Anna Myers, CNP, Female Sexual Health, Pelvic Medicine
- David Sheyn, MD, Board-Certified Female Pelvic Medicine Reconstructive Surgeon

"As a provider working in an FOHC, I find the morbidity and complexity of our patient population extremely challenging. The ECHO series have enabled me to manage some of these complex cases with more confidence and provide better care to members of the community. These programs offer a comprehensive overview including an integrated approach spanning pharmacology, social services, and behavioral health. This integrated approach aligns perfectly with the clinic we strive to create for members of our community."

Gerald Santangelo, APN, Near North Health Care Services
