MARGARET 
HACKETT
FAMILY PROGRAM

The 5th Annual Margaret Hackett Family Program (MHFP) Symposium: Modern Perspectives on Congenital Skeletal Disorders - *In-Person and Webinar*

This symposium will introduce a variety of central nervous system (CNS) congenital anomalies and the challenges of their treatments. Specific congenital syndromes will be visited in detail to describe treatment approaches. In addition, models of care as well as future approaches will be discussed.

This activity is designed for neurosurgeons, neurologists, pediatricians, physical medicine and rehabilitation physicians, nurses, physical and occupational therapists, and other healthcare professionals dedicated to the treatment of central nervous system congenital anomalies.

Keynote Speakers

Dr. Julie Hoover-Fong; MD, PhD
Topic: Genetic Skeletal Disorders: Natural History and Advances in Treatment

- Director, Greenberg Center for Skeletal Dysplasias at Johns Hopkins
- Professor of Genetic Medicine
- Professor of Pediatrics

Dr. Rich Anderson; MD, FACS, FAAP
