UChicago Medicine presents: Tips for a Successful Robotic or Laparoscopic Hysterectomy for Large Uterus (>500 g)

Please join us for a free hands on
training CME event on

Saturday, April 22, 2023

9am-12p, @ UChicago Medicine Center for Care and
Discovery- 5700 S Maryland Ave, Chicago, IL Room
07850

Sandra Laveaux, MD, MPH

Assistant Professor of Obstetrics and Gynecology
Director, Center for the Advanced Treatment and
Research (CATeR) of Uterine Fibroids

After this activity, participants will be able to:

- Effectively select patients that are good candidates for a robotic or laparoscopic hysterectomy.
- Understand key principles and techniques to enhance each surgical step of a hysterectomy.
- Strategically place operative ports for successful laparoscopic and robotic hysterectomy.
- Optimally utilize all robotic arms effectively.
- Contain large pathology using various containment and extraction systems.
- Efficiently extract large pathology and decrease operative times.
