# University of Chicago Annual Stroke Symposium

**Friday, June 7, 2024**  
**David Rubenstein Forum**  
**at the University of Chicago**

## Target Audience

This activity is designed for healthcare professionals, including family medicine physicians, internists, emergency department physicians, neurologists, neurosurgeons, nurses and other medical professionals who care for patients with acute and chronic cerebrovascular disease.

## Hot Topics and Debate

- Acute dizziness, when is it a stroke?
- Thrombectomy, is lysis dead?
- Secondary stroke prevention, cutting edge advances
- Large core, distal occlusion, Low NIH stroke: Are we ready yet?
- Neuroimaging and vascular malformations
- Intra-saccular aneurysm embolization: fancy tools or must haves?
- Pseudotumor cerebri, to stent or not to stent
- Debates: Intracranial stenting, carotid disease and more...
