9th Annual Updates from ASH 2023: Practice Changing Abstracts is a continuing medical education activity sponsored by The University of Chicago Pritzker School of Medicine with a goal of joining community-based providers and academic oncologists to improve care and outcomes of patients with hematologic malignancies. The educational initiative includes a full day interactive live CME activity developed and delivered by thought leaders in the field of hematology/ oncology. The course will provide a forum for many local health professionals who do not have the time or resources available to attend the annual ASH conference where the latest scientific and clinical research in blood cancers is discussed, so they need a venue in which they can learn about these important updates.

We are pleased to provide the following opportunities for organizations to advertise their products and services to conference attendees. Whether you are live chatting with an attendee regarding the elements available on your exhibit page, connecting with physicians during one of the scheduled breaks, or gaining brand recognition for your company through program acknowledgements, your message will reach physicians, hematologists, pathologists, medical oncologists, residents and fellows in training, nurse practitioners, physician assistants, nurses, pharmacists, and other healthcare professionals dedicated to the treatment of hematologic cancers.
