

Thank you for your interest in registering for this activity!

This guide is a general resource for navigating our registration process. While options, fees, and other details may vary from course to course, the payment process will essentially be the same.

STEP 1: To initiate your course registration, it's essential to be logged into your UChicago CME account. If you don't have an account yet, please create one. This is a prerequisite for accessing our registration process. If you're already logged in, continue to step 2.

TIP: If you're not logged in or haven't created a UChicago CME account, don't worry. You'll see a helpful yellow banner guiding you to do so instead of the registration options on the "Get Started" tab of the activity page. Click the appropriate hyperlinked option, and upon completion, you will be returned to the registration page automatically.

TIP: If you experience a registration error, the most common causes come from information entered on this screen! Keep the following in mind:

1. Make sure the billing address matches the address associated with the credit card being used! This is the most common reason learners experience errors while trying to register.
2. Entering too many characters, especially for company/organization names, can result in registration errors.

STEP 5: This screen will allow you to review your registration and complete payment. Click “Pay” to enter your credit card information.

REGISTRATION FAQ

Below is a summary of some tips covered in this help document. Use it to quickly find potential answers to some of the most common questions!

I'm on the "Get Started" tab but don't see any registration options.

To access our registration process, you need a UChicago CME account. Log into your existing account or create one if you do not have one.

Once logged in, your name should appear in the top right corner of our website. Registration options will also appear at the bottom of a conference page's "Get Started" tab.

I keep getting an error when trying to register.

There are a few reasons you may experience a registration error. Here are the two most common causes:

1. The credit card is being declined because the address entered doesn't match the address associated with the card. This typically occurs when using a credit card that is not your own or when you've recently moved.
2. Too many characters are being input in one of the billing information fields. Most commonly, learners may enter too many characters in the organization/company name field.

The discount code I'm entering doesn't work.

Aside from a technical error, a discount code may not work for the following reasons:

1. The code you're trying to enter has expired. If you've missed the deadline for a discount, for example, an early-bird discount, the code will not work.
2. The code isn't intended for use under your chosen registration option. If a code is designated to apply in a specific circumstance, for example, only for residents and fellows, it will not work for a physician by design.

I need a receipt for my records, reimbursement, etc.

Learners will receive a registration receipt via e-mail at the time of registration. The receipt can also be retrieved from your account at any time. Visit <https://cme.uchicago.edu/my/orders> to view and download your receipt(s).
